How to read the detailed timetable?

The timetable makes use of colours to indicate the department and systems. It also uses colour coding of the boxes to indicate integration.

The colours used for various systems are as below:

Colour codes for system
1. General
2. Cardiovascular system
3. Digestive system and Excretory system (includes Hepatobiliary)
4. Endocrine system
5. Sensory system (includes skin, eyes, & ears)
6. Immune system, lymphatic system & Haematology
7. Musculo-skeletal system
8. Nervous system
9. Renal system and Urinary system
10. Reproductive system
11. Respiratory system

P.S. General is used in case the topic does not fit into any system or involves multiple systems.

The colours used for fonts of various departments are as below:
