Applications are invited from outstanding students for the Summer Research Internship (SRI-2022) Program at the Manipal Centre for Natural Sciences, Centre of Excellence.

Summer Research Internship is an annual program at MCNS, intended to introduce participants to fundamental research. SRI-2022 will be conducted through Online and Offline modes

Statements of interest are invited in the following research areas:

Astrophysics

Evolutionary Botany

Nuclear Physics

Geomorphology

Computational Chemistry

Nano-Materials

Selections are highly competitive and only a limited number of supported internships are available.

Support for internships includes:

Support	Offline	Online
Stipend (consolidated pay)*	Rs. 15,000/-	Rs. 5000/-
Travel Expenses (Within India - to and from Udupi)	Up to AC 3-Tier	Not applicable
Accommodation (on-campus)	Free, shared non-AC rooms	Not applicable

**Subject to the successful completion of the internship*

Full participation in the program is a condition for eligibility for a certificate.

Benefits:

- Interns interact with active and eminent research faculty on the chosen areas of research.
- Personalized program provides an opportunity for the intern to get acquainted with necessary observational /computational /theoretical techniques appropriate to the research area and to acquire basic knowledge and skills required for contemporary research in the field.
- Interns will have the opportunity to experience the entire research life cycle right from the statement of the problem to writing an original research article in the format of the best journal in the field.

How to apply:

- Apply online using the following hyperlink:
<https://forms.office.com/r/FFZNpmQ7e9>
- Submit your application on or before 23 April, 2022.
- Letters of recommendation from two referees to be sent by the applicant to sri@manipal.edu
- Incomplete applications will not be considered.

About MCNS
